New Key Bumping Public Service Announcement

Due to the overwhelming demand for information on key bumping and how to prevent this widely publicized threat, Medeco High Security Locks has developed an informative DVD. To order the DVD, please contact Medeco Customer Service at 1-800-839-3157 and order part number LT-922116 Rev A.

Medeco Spotlight

Logic a Big Hit at ISC West

Medeco's new Logic brand digital keys and digital cylinders were recently exhibited at ISC West in Las Vegas, NV. As a platform that requires no wiring, no additional hardware, and no door hardware modifications, ISC attendees from industries and businesses of all types consistently remarked, "that's a great product."

Logic cylinders install just like mechanical cylinders. And, with audit trails, schedules, and the ability to digitally remove a lost key from a system, Logic offers true flexibility, convenience, and security. In fact, Logic is the only retrofit cylinder that combines both mechanical pins and electronic technology. "For access to be granted, keys must be properly cut and programmed," said Tom Zuckerwar, of Medeco's E-Cylinder Department. "Logic offers two layers of security."

Those at ISC West were also excited about upcoming Logic cam locks, deadbolts, and padlocks. "This is the most innovative product in the whole show," said one attendee. "It's just what I need."

Medeco Canada Spotlight

Meet the Canadian Inside Sales Team!

Bill Heaney, Teresa Holst, Mary Lee Rundstedler, Darlene Oaks, Helene Desbiens

Medeco Canada Customer Service strives to be the best team in the industry, and they are just a phone call away! Teresa Holst is responsible for Ontario. Helene Desbiens and Bill Heaney, who are completely bilingual, are responsible for customer service in Montreal, Canada.

Medeco Export Spotlight

Medeco Secures The Royal Residency

Helen Mirren may have secured an Oscar® for her part in The Queen but Medeco has been busy securing Her Majesty themselves. Medeco is proud to have been chosen to secure one of Britain's biggest tourist attractions and official royal residency. By working closely with an authorized dealer the Medeco³ high security cylinder system has been chosen ahead of all others to provide this prestigious property with a high security solution to address all their main concerns. Previously the property had an assortment of different manufacturers' locks installed and many keys issued for each of these. The Chubb Locks M3 system was able to offer outstanding key control by way of a tailor made master key suite offering easy access to authorized staff and high levels of security against those without access rights. Sadly however there were no red carpets or glamorous after show parties for this success!!
Portions taken from the ASSA ABLOY UK Newsletter

Medeco Security Centers

Phase Three Launched

Phase three of the Medeco Security Center (MSC) Program has successfully launched. On April 19th and 20th four dealers traveled to the factory in Salem, Virginia to attend the second quarter owners' training session. The MSC's learned about new products and marketing tips while sharing ideas and best practices. Medeco is continuing to add additional MSC's to the program. If you are interested in finding out more details about this business development program, please contact your local territory manager for details.

Arrow Spotlight

Arrow Announces E41 Deadbolt Launch

Arrow is proud to announce the launch of the Grade 2 single cylinder

deadbolt, the E41. In comparison to the E61, the E41 utilizes a low profile face which will be less intrusive protruding out from the door. The E41 is available in the Arrow KA4 keyway and comes in finishes 26D, US15 and 03.
