40 Years of Security

Our Commitment

Since 1968 and the invention of the Medeco high security cylinder to new innovations in high security electro-mechanical locking systems, Medeco High Security Locks, Inc. has continued to lead the market in developing and protecting the integrity of high security locking devices.

The innovative culture and drive for continuous improvement instilled at Medeco by its first President, Roy Oliver, remains a cornerstone of Medeco's commitment to high security. The continued security of its locks is the number one priority at Medeco, and the company committed to making sure its products meet all applicable standards.

Independent testing labs, such as those associated with UL and ANSI/BHMA standards, consistently confirm that Medeco high security locks meet or surpass all requirements for high security cylinder. Medeco high security locks currently meet both the UL437 high security certification as well as ANSI/BHMA A156.30 Level A high security standard. Medeco remains committed to ensuring our products meet or exceed new safety and security standards as they are developed.

Responsibility comes with leadership, and to us this means the continual need to adapt and evolve. Medeco has successfully addressed numerous opportunities for security throughout its 40 year history and remains dedicated to doing so.

You have our commitment!
