Logic Listed in Buildings Magazine Top 100 Products

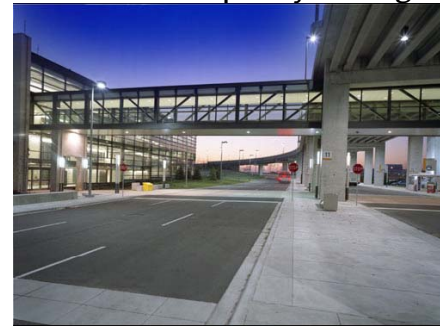

Buildings Magazine recently released their top 100 products list with Logic highlighted as one of the best hardware products. The editorial determines the list after talking with suppliers, working with products, and researching websites and product literature. The purpose of the list is to help builders and facility managers equip their locations with the best products available.

Medeco Logic Secures Ottawa International Airport

Security administrators at the Ottawa International Airport in Ottawa, ON, Canada, have chosen Medeco Logic to secure Airport security office doors and are quickly finding additional ways that Logic solves many security issues. Originally the product was selected for administrator's to audit both cylinders and user keys. After using Logic for few days however, it was very quickly understood that the one-key convenience and flexibility afforded by digital masterkeying was of equal value. Since the original limited installation, administrators have added to the system two times and are currently evaluating Logic in a G8R all-padlock for the gates on the airports entire 22 kilometer perimeter fence – an ideal application as Logic is one of the very few products on the market that can reliably offer audit and scheduling in a stand-alone padlock.

Medeco to Help Stop Prisoners on the lam in Nova Scotia

A July 11th article in the Metro Halifax (Canada) newspaper highlighted the need for high security leg shackles for prisoners. Recently,

prisoners have escaped the previous shackles, prompting authorities to seek what they to be the best locks for resistance to physical attacks— Medeco. [Click here](#) to download full story.
