## Logic on Your Home

Have you thought about putting Logic on your home? The powerful electromechanical locking system is becoming well known among homeowners for its aesthetic appeal and electronic capabilities. For example, a home in southern California enjoys Logic's audit capabilities and instant rekeying features, which allow him to manage who enters and when. Vikki Flam of Flam's Key Service in Sherman Oaks, CA says the homeowner finds, "comfort in knowing who is going in out of his home as he also runs business from there and has confidential files". Logic is a great solution for homeowners who travel frequently and service personnel visit their homes while out of town or homeowners with various people entering and leaving their property. To talk with a local Medeco dealer about Logic for your home visit our dealer locator <http://www.medeco.com/dealers/>.

## Securing our Energy Resources

A white paper discussing the physical security issues related to The Federal Energy Commission (FERC) and the North American Electric Reliability Corporation (NERC), who govern the nation's energy industry and ensure the reliability of the U.S. and Canadian electric power systems, respectively is now available for download [here](#).

## Medeco Spotlight

### Medeco Turns 40!

In October 2008, Medeco turns 40! We have celebrated a rich history innovation and leadership in the industry. From our start in a small tool and die firm to a global brand today that offers a broad range of retrofit cylinders with key control, high security, and electromechanical solutions. [Click here](#) to view a presentation about our history of

innovation.

## Tech Notes

### Logic Key Unbundling/Part Numbering

Effective August 11, 2008 we implemented a change to sell Logic and cylinders separately for the convenience of our dealers. We are making this change to gain inventory visibility of Logic keys to that sufficient quantities of keys are readily available to support Logic orders with timely shipping. [Click here](#) for more information.
