Celebrating 40 Years of Innovation

On Monday, October 6th, Medeco celebrated its 40th anniversary by holding a picnic for current and retired employees. Management served hotdogs, hamburgers, chips, and beans.

Over the last 40 years, Medeco has become the leader in high security and retrofit. New innovations in patented key control and electromechanical security set the stage for continued growth and success for years to come. We are thankful to those who have built the company to where it is today and to those who will continue to make strong, innovative products in the future.

Building on our past, working towards our future!

The Importance of a Good Key System

As a leader in high security and key control, Medeco knows the importance of not only locks, but of a good system as well. A video is now available at www.medeco.com under Technical Services area at the top of the page. If you're in the process of designing a system or working with a customer that needs a new key system, this video may be

MARCS Chooses Logic

Ohio MARCS is part of the State of Ohio's program to provide a backbone system that provides interoperable voice and data communications to over 600 public safety agencies Statewide. As part of this program, MARCS maintains over 200 plus communications across Ohio. Medeco Logic was chosen to replace the current locks at these sites. MARCS choice to use Medeco Logic was based on the benefits of an electronic without having to modify sites with additional wiring and equipment. The ability to manage sites with key control, audit of each site, tracking of entry and exit, and functionality and of installation were all among the issues considered in choosing Medeco Logic as the best product to suit the needs of Ohio MARCS.
