Medeco Smart SFIC Solutions: Value, Security, and Loss & Liability

Medeco eCylinders are a complete electronic locking system providing controlled access, accountability, physical security and system management.

More than just a way to protect your facility, eCylinders are a business tool that can lead to a substantial return on investment.

**Controlled Access**—Keys are electronically programmed to open only specific locks during a designated schedule.

**Accountability**—Audit information is recorded in both the lock and key, showing authorized accesses and unauthorized attempts.

**Easy Installation**—No hard wiring required.

**Electronic Rekeying & Scheduling**—Respond quickly to lost or stolen keys.

**Physical Security**—Attack-resistant design and tamper-proof features.

**LEVEL 3 LOSS & LIABILITY SOLUTION**

For applications where the ability to schedule and audit access is needed in a SFIC format cylinder.

**Product Recommendation:** Medeco XT eCylinder

A SMART WAY TO THINK ABOUT SMALL FORMAT INTERCHANGEABLE CORES

Medeco believes in giving customers the greatest control over their security.

SAVE MONEY

Our SFIC products are manufactured in a state-of-the-art U.S. manufacturing facility, to the exact specifications to be compatible with your existing hardware. These high-quality standards offer you maximum value at competitive prices with overall low cost of ownership.

UPGRADE TO PATENTED KEY CONTROL

Our system of true key control offers the highest possible protection combined with superior keying capabilities. A simple upgrade to Medeco X4 gives you patent protection against unauthorized key duplication until 2027.

REDUCE LOSS & LIABILITY

Medeco XT offers audit and scheduling in SFIC. Medeco XT provides accountability, along with flexible electronic masterkeying capabilities, to protect sensitive or critical areas without changing hardware or costly hard-wiring.

SERVICE & ACCESSIBILITY

Our extensive network of distributors, service centers and dealers offer accessibility and expertise when and how you need it.

THE VALUE OF THE KEYMARK B SOLUTION

KeyMark B cylinders are manufactured in the U.S. and are compatible with most existing hardware. Popular keyways are available to key into existing masterkey systems using A-Q, W or T keyways. KeyMark B offers a cost-effective solution to expand your existing system.

- **Uses Existing Hardware**—Medeco KeyMark B is made to the exact specifications to be compatible with your existing hardware and parts you have on hand.
- **Can Be Masterkeyed Into Existing Systems**—A-Q, W and T series keyways available to match existing masterkey systems.

THE SECURITY OF MEDECO X4 PATENTED KEY CONTROL

Medeco X4 offers a wide variety of retrofit cylinders, including SFIC. The patent extends through 2027 and offers four times the masterkey capacity of similar-style cylinders.

- **Patented Key Control**—Protects unauthorized duplication of your keys.
- **Uses Existing Hardware**—Medeco offers the largest selection of retrofit cylinders, which reduces cost by eliminating the need to replace your existing hardware.
- **Superior Masterkey Capabilities**—Four times the masterkey ability of similar-style cylinders.

---

**LEVEL 0 RETROFITS EXISTING SYSTEMS**
- PATENTED KEY CONTROL
- MECHANICAL HIGH SECURITY
- LOSS & LIABILITY

**LEVEL 0 RETROFITS EXISTING SYSTEMS**
For applications where keying into existing non-patented keyways and systems is desired.
**Product Recommendation:** Medeco KeyMark B

**LEVEL 1 PATENTED KEY CONTROL**
For applications where the ability to duplicate keys is prohibited without authorization.
**Product Recommendation:** Medeco X4
